

An aerial photograph of a large industrial facility, likely a port and steel yard. In the background, a large green and yellow cargo ship is docked at a pier. The foreground and middle ground are filled with numerous stacks of long, rusted steel beams. Several yellow forklifts and other vehicles are visible among the steel stacks. To the right, there are large industrial buildings and more stacks of materials. The sky is filled with large, white clouds.

Schaefer

United States • Mexico • Colombia

Stevedoring • Warehousing • Trucking • Vessel Agency • Logistics • Ocean Freight

Schaefer Group is an international stevedoring and shipping organization providing fully integrated logistics services within the maritime and port related industries of North, Central and South America. From our offices in the United States, Mexico and Colombia, we offer complete steel and general cargo shipping services for much of the Pacific Coast and Gulf of Mexico. As an American company focused on Latin America, we offer stevedoring, warehousing, trucking, vessel agency, logistics and ocean freight broking services in the region. Latin America has become for us, very familiar territory. Our facilities and services there are an integral part of our company's general operations and growth; making our presence in the region among our greatest strengths.
